

Simon A. Frizzell

Simon is an Associate with Key Murray Law and he offers legal services out of our Charlottetown office.

Simon is fluent in both French and English. As learning French was always a priority for him, Simon decided to obtain his Bachelor of Science and Law degree from francophone universities. He is now excited to serve his clients in both of Canada's official languages.

Simon is building a practice with a general focus on litigation. Understanding that each case is unique, he uses his background in sciences to analyse all aspects of a case critically and to form optimal solutions for his clients' distinctive needs and circumstances.

Simon appreciates that the justice system can be daunting to traverse, so he strives to educate clients on their legal issues and to keep them informed of the status of their matter.
